

## SnapAround® Cable Markers

- Outdoor durable, UV, solvent and water resistant
- Custom sizes, colors and messaging
- Mount around metal pipes, wires, cables
- RFID available

### Description

Our customized SnapAround® Cable Markers are made of coiled PVC plastic and are easy to install. Just unroll and “snap” around existing cable, optical fiber, pipe, duct or tubing. The cable marker holds its tight coil around the cable for the life of the marker. Available in standard or custom graphics and messages. Add RFID to combine the benefits of visual identification with the efficiency of RFID technology.

Cable Diameter	Marker Size
0.375 to 1.0"	4"x4", 4"x7"
1.0" to 2.5"	7" x 8"

### Additional information

Weight	N/A
Dimensions	N/A
Model Number	WFS-ES-SNAPAROUND SnapAround Cable Markers
Applications	Asset Marking, Outdoor Use, Safety & Compliance, Utility Labeling
Material	Rigid PVC Plastic
Size	4"x4" (0.5"-1.0" cables), 4"x7" (0.5"-1.0" cables), 7"x8" (1.0"-2.5" cables)
Expected Outdoor Life	7 – 10 Years
Temperature Service Range	-20°F to 185°F
Colors	Black, Orange, Blue, Green, Red, White, Yellow
Water Resistance	Excellent
Solvents Resistance	Very Good
UV Resistance	Very Good
Abrasion Resistance	Very Good
Shelf Life	Completely Stable, Stored at 70F and 50% Relative Humidity

## RFID Performance

RFID Protocol	UHF Class 1 Gen 2
---------------	-------------------

\*Other single record and dual record chips available.

Tested Polarization:

Tag performance was experimentally measured in an anechoic chamber with a known set of experimental

variables. The antenna used for measurements was linearly polarized and of monostatic configuration. The direction of tested polarization is as follows.

Optimal Read Range\* on Different Material Surfaces:

\*Tag performance was measured free of material influence. Actual read ranges may differ depending on conditions such as environment, tag placements, hardware, etc.
